RapidRun® Integrated (DIN Pass-Thru) Wall Plate
Provides DIN Connector Wall Plate Connection Access

RapidRun® is designed to be the standard for in-wall audio/video installations. The RapidRun system empowers you to customise your installation to create your own ideal audio/video solution. Break-Away Flying Leads and Wall Plates ensure flexible, efficient, high quality connections for all types of equipment.

Ideal for educational and institutional installations, these Wall Plates provide external & internal PC or Multi-media pass-thru cable termination access. It is commonly used as a teacher's station input to a ceiling mounted display (projector) utilising corresponding Flying Lead accessory connections. Constructed from aluminium for durability, this Wall Plate has both an internal & external locking DIN connector that enables the integrator to save valuable space inside the surface mount or electrical box that typically is already packed with cables.

Please Note: Each complete RapidRun solution requires a Break-Away Flying Lead or Wall Plate to terminate each end of the Runner cable. For each Runner you will need (2) Break-Away Flying Leads, (2) Wall Plates, OR (1) Break-Away Flying Lead and (1) Wall Plate.

Applications:
• Perfect for Education & Healthcare A/V interconnect applications, including:
   - Classrooms, Conference Rooms, Auditoriums and Digital Signage

Features:
Input: (1) 15-pin or 12-pin DIN Connector
Output: (1) 15-pin or 12-pin DIN Connector
• Manufactured from high grade materials
• Fits standard single gang back box
• Faceplate mounting hardware included
• No field termination is required
• Lifetime Warranty
